

2010 NBCCEDP Allowable Procedures and Relevant CPT Codes

Listed below are allowable procedures and the corresponding suggested CPT codes for use in the National Breast and Cervical Cancer Early Detection Program (NBCCEDP) under these general conditions:

- Screening services should include a CBE, pelvic exam, teaching of breast self-exam, referral for a mammogram for women 50 years of age and older, and a Pap smear, if indicated. Exam forms that do not record all of the information will be paid at a rate commensurate to the service provided.
 - Reimbursement for treatment services is not allowed.
 - When questions arise regarding the appropriateness of using a procedure that is not listed, they may be directed to the Program Coordinator, Karen Allen, R.N., at (775) 684-5936.
